How We Get You to Page One Search Results

- Keyword Analysis
- Keyword Density
- Professionally Written & Optimized Content
- 90 Day Page One Organic Placement Guarantee

How We Keep You on Page One Search Results

- **Monitoring of traffic stats to validate visits occurring to your website**
- **Ensuring the optimization is in place and currently meeting Google's known criteria**
- **Submitting overall XML sitemap to Google through Google's Search Console**
- **Performing a manual Site: Google Search for the individual landing pages for further validation of optimization**
- **Monitoring of backlink trust flow. Disavow links with a trust flow less than 10**
- **Perform coding changes as required when Google has a major algorithm change**
- **Testing compliance through our proprietary software applying Google's recommendations / standards**
- **Regular submissions of all individual landing pages to Google and other major search engines**
- **Rebooting both HTML and XML sitemaps if Google Search Console crawl but do not index a landing page**
- **Perform manual searches for keyword ranking of the landing pages presented on Site: Google Search**
- **Make changes / additions to content for struggling keyword phrases**
- **Quarterly reporting from NetBuzz on SEO placement to the client**
